The Big
"C"

LIVE NATURAL AND ENERGETICALLY

The Big “C”

Orange is an indispensable fruit especially in winter months with its taste and smell. Oranges are naturally considered a storehouse of vitamin C.

It contains not only vitamin C, but also potassium, vitamin B, magnesium, and calcium. Orange is also a fruit, which is very rich in fiber, sugar and organic acid. Vitamin C helps prevent cell damage that leads to cancer and cardiovascular diseases, protecting the immune system and other systems, especially the lungs.

Vitamin C plays an active role in the production of collagen, allows wounds to heal, supports skin and connective tissue. Orange also contains antioxidants necessary for eye health. It protects from damage to the eye by blue light with lutein and zeaxanthin antioxidants. Increased intake of these antioxidants prevents the formation of eye diseases such as cataracts and age-related macular degeneration. Blood sugar remains balanced in people with intermediate meal habits

PERFECT
Summer

LIVE NATURAL AND ENERGETICALLY

PERFECT Summer

Coconut and pineapple are the perfect mix of the most popular tropical fruits. Beyond the exotic nature of these fruits lies substantial health and nutrition benefits, which is a tasty secret.

Coconut, the beautiful white fruit has made a name for itself. It's rich in fiber and full of essential vitamins and minerals, including vitamins C and E, iron, selenium, sodium, magnesium, and phosphorus.

Its water is high in electrolytes, which help keep the body properly hydrated, while the flesh (or meat) and oil that comes from it is an excellent source of healthy fat that helps give HDL – the 'good' cholesterol – a boost.

Pineapple is not just a quick snack – it's one of those fruits that you probably don't think about the benefits of because it's not really in the news.

Despite being so sweet, pineapples are quite low in calories. It's a great source of various vitamins, minerals, and enzymes. Pineapple contains high amounts of fiber, vitamin C, and manganese, which is important for proper brain and nerve function and plays a role in the metabolism of fat and carbohydrates, calcium absorption, and blood sugar regulation. It also has thiamin, a water-soluble B vitamin that helps cells change carbs into energy. Finally, fresh pineapple is well known in the realm of anti-inflammatory foods, as it contains bromelain, a protein-digesting enzyme that helps reduce inflammation in the body.
